DETAILED ACTION

The Amendment, filed on March 6, 2006 has been entered and acknowledged by the Examiner.

Cancellation of claims 48,49 and 54 has been entered.

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Ms. Therese Hendricks on May 8, 2006.

The application has been amended as follows:

In the Drawing

Figure 1 has been designated by a legend such as --Prior Art-- because only that which is old is illustrated. See MPEP § 608.02(g). An amended drawing of Fig. 1 is attached.

In the Specification

The title of the invention is not descriptive. In pursuant to MPEP § 606.01 the title has been changed as follows.

--DISPLAY DEVICES WITH REFLECTIVITY-INFLUENCING ELECTRODE--.

In the amended specification page 13, line 19 (before Fig.2) the text has been replaced with following text:

--Fig. 1 is a cross section of a conventional organic light-emissive device ("OLED"),--

In the abstract

Line 1 'comprising' has been changed to --including--.

Line 6 'including a light absorbent layer comprising graphite' has been changed to --having a light absorbent layer including graphite--.

Allowable Subject Matter

Claims 43-47,50-53 and 55-58 are allowed over the prior art of record.

The following is an examiner's statement of reasons for allowance:

Regarding claim 43, the references of the Prior Art of record fails to teach or suggest the light emissive device having the combination of the limitations as set forth in claim 43, and specifically comprising the limitation of second electrode comprising a reflectivity-influencing structure which includes a light absorbent layer comprising inorganic compound comprising a fluoride or oxide of a metal having work function of 3.5 ev or less.

Claims 44-47,50-53 and 55-58 are allowable for the reasons given in claim 43 because of their dependency status from claim 43.

Art Unit: 2879

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
